

# **BABIES BALLET (for boys and girls), CLASSICAL BALLET**

**For children aged 24 months and upwards**

The 2 - 4 year old classes are very special and a child's first experience of a dancing class. Children are taught basic co-ordination skills whilst learning to interpret and understand different styles of music. Ballet in the Cecchetti method is taught to pupils of 4 years and upwards.

We believe that music is an essential part of learning to dance so our ballet classes are accompanied by experienced pianists.

Once a year selected pupils are entered for their Cecchetti Ballet Examinations and are adjudicated by examiners from the Imperial Society of Teachers of Dancing (ISTD). Children are encouraged to work hard, aiming for good examination results whilst at the same time having fun in discovering the world of dance. Great emphasis is placed on poise, grace, musicality, co-ordination and performance.
